

Dear Loving God,
We thank you for all the resources of the world. Grant us thoughtfulness and wisdom in our use of them and in our spending and consumption. Help us to be mindful in the re-use and recycling of resources and to tread lightly on the planet. We have inherited this Earth and all that is in it through your love. Help us to recognise our responsibility to pass it to future generations in a condition that is safe and sustainable.

In Jesus name.

Amen.
