

# How is climate change affecting our world?

## English

This term our writing will be based around the book *Last Bear* by Hannah Gold. Children will complete a range of writing types linked to this book.

## Maths

Our unit this term begins by mastering formal written methods for both multiplication and division, including long multiplication and division with remainders. Children will then move on to fractions where they will learn how to multiply fractions by whole numbers and calculate fractions of various amounts.

## Geography

Our unit this term focuses on how we can look after our planet by using energy wisely and protecting the variety of animals and plants that live there. Children will learn about how to use energy wisely as well as simple ways we can all live more sustainably to help the environment.

## Art

# Year 5

# Term 3

## Computing

We will begin this term with an e-safety lesson where children will learn how to use the internet to research safely. They will then move onto programming where they will be introduced to a microcontroller and learn how to connect and program it to control components.

## PPA time -

I will be out of class on **MONDAY** afternoons. Children will spend these afternoons alternating between **forest** and music and Spanish.

## PSHE

This unit is entitled 'valuing difference.' Children will celebrate what makes them unique while learning how to show respect and kindness towards people from a range of backgrounds and communities.

## PE

Our PE days are Tuesday and Thursday. Each Tuesday children will be swimming so please ensure they have their kit. The other lesson will be spent playing dodgeball. Trainers need to be worn.

## Science

Our unit this term is all about the different properties of materials and how they change when they are mixed, heated or cooled. Children will learn how to group materials and discover which are reversible and irreversible changes.
